

oilfino Versus A

DESCRIPTION

oilfino Versus A is a specifically formulated silicone-free, organic oil that displaces moisture, prevents corrosion, dissolves rust but also provides simple lubrication. oilfino Versus A prevents corrosion of all metals under different corrosion conditions while lubricating contact and friction surfaces at the same time. oilfino Versus A penetrates and loosens rusty locks, hinges, bolts, etc.

APPLICATION

oilfino Versus A can be used as follows:

1. Spraying (aerosol or conventional spray-on device)
2. Rubbing or brushing
3. Immersion

When using Oilfino Versus A under normal conditions, protection duration depends on the material to be protected and environmental conditions. Basically, the following protection effect can be expected for steel under normal conditions::

1. Covered or inside: 1 year or longer
2. Protected outdoors: 6 months up to 1 year

If protection is required for a longer period, treatment with Versus A should be repeated.

| Specific Data | Method | Unit | oilfino Versus A |
|-----------------------|---------------------|--------------------|--------------------------------------|
| Appearance / colour | | | clear or slightly cloudy / yellowish |
| Smell | | | very weak, characteristic, pleasant |
| Spec. weight at 20°C | | g/m ³ | 0,820 |
| Viscosity at 20°C | | mm ² /s | 3,1 |
| Flash point | DIN EN ISO 2719, PM | °C | >60 |
| Non-liquid components | | | at least 22% by weight |
| Flow point | | °C | <-20 |
