

oilfino Via Eco P 0W30

DESCRIPTION

oilfino Via Eco P 0W30 is a synthetic Low SAPS smooth-running engine oil, designed for use in petrol and diesel cars. It is particularly well-suited to use in diesel engines with particle filters. It is characterized by its excellent cold starting properties, minimization of fuel consumption, friction and wear. oilfino Via Eco P 0W30 provides measurable fuel savings and a reduction in emissions due to a reduced HTHS viscosity. It contributes to the protection of the environment. Extended oil change intervals as per manufacturer's instructions.

APPLICATION

oilfino Via Eco P 0W30 is a synthetic smooth-running engine oil, which has been developed especially for diesel engines with particle filters. It is suitable for petrol and diesel engines in cars and transporters with and without turbochargers.

PROPERTIES

- Excellent cold starting properties, even at low temperatures below -30°C
- The function of the hydraulic valve lifter is guaranteed at all temperatures
- Fuel savings under all operating conditions
- A secure lubricant film at high operating temperatures
- Neutrality towards sealants
- Extensive protection against wear, corrosion and foaming.
- Low evaporation, thus low oil consumption
- Extended oil change intervals protect natural resources
- Low SAPS = reduced sulphated ash, phosphorous and sulphur

SPECIFICATION

- ACEA C1/C2
- JASO DL-1 Level
- Jaguar Land Rover STJLR.03.5007
- PSA B71 2312, PSA B71 2302

Specific Data	Method	Unit	oilfino Via Eco P 0W30
Density at 15°C		kg/m ³	843
Viscosity at 40°C		mm ² /s	53,9
Viscosity at 100°C		mm ² /s	10,00
Viscosity index			175
Pour point		°C	-51
